

- A useful small size rack for mounting a big stuff such as a sleeping bag or a tent on the side of your front fork. The stuff will be securely tied down to the cage rack with the supplied belts.
- Durable and UV proof powder coat finish.
- Compatible with disc brake.
- A flash light can be installed underneath this cage. (The bracket is sold separately)

(ver.1.0 2021/8)

! This cage requires the grommets (threaded holes) on the front fork.

Belt Route

Shorter Belt x 2

Pass the belt between the front fork and the backside of the cage rack. Do NOT tie with the front fork.

Longer Belt x 1

Mounting Flash Light

You may be forced to mount the flash light onto the right side only due to the conflict with the Q/R lever or the Thru Axle.

GP Mount (option)

Flash Light (option)
